

Linguistic of Expertise to Be Studied

Kurbanova Farogat Subkhanovna

*Uzbek Language and Literature University named after Alisher Navoi
Teacher of the Department of Uzbek Linguistics*

Abstract. *Linguistics expertise is this result belongs to questions solution in doing special knowledge application is required an expert conclusion to be given with final , procedural in terms of in order inserted , oral and (or) written of speech to expertise about linguistic are studies.*

This article provides reasonable information about the importance and effectiveness of pictograms in today's study of their place, importance and meaning, in the process of information sharing and interpretation in people's lives.

Key words: *periodic in publications information , promotion and informative content , public to distribute intended print or manuscript products , scientific and popular or socio-political content books or manuals , paper or on photo and video carriers note done writing and another texts.*

Introduction

The mouth is sweet texts - rally and in meetings performances (lecture), interview or negotiations , messages and audio carriers note done another texts .

linguistics expertise to the front putable questions as follows :

- present done in the text, specific nation , denomination or social to the group related (directed) in relation to, other social to groups relatively negative assessment there is was words, thoughts and considerations is there
- in the text, separately to representatives not but whole ethnic to the group directed sharp, negative evaluation or enmity or the difference expressive thought and considerations is there If available if they are how in the form statement made: confirmation, opinion, emotional (emotional) - affective (expressive) assessment, subjective appraiser thought and huh ?
- certain nation, denomination or social to the group relevant (directed) relative negative assessment there is was words, thoughts and of considerations the author editorial to be maybe or negative evaluation comments quote, respondents personal opinion, commentator, correspondent or official of individuals personal opinion in the form of given
- in the text, one the nation or social group of a citizen, other to the nations than negativity (weakness, inferiority, immorality and etc.) promotion doer thoughts is there
- in the text, specific one to the nation relatively hostility or hostile actions done to increase exclamatory (inviting, calling) thoughts is there
- in the text, one nation, ethnicity and social to the group belongs to to individuals relatively discriminatory or humiliating thoughts is there
- in the text, one social group at the expense of another social group to act in favor of exclamation point in the form of the word or thoughts is there

- in the text, Uzbek language point of view in terms of, one ethnic of the group all to members Uzbek culture and in traditions negative evaluated ancient habits, beliefs , actions action to do exclamation point to calls have thoughts is it available
- in the text, one the nation superiority and another one the nation weakness or negativity about confirmation shaped thoughts is it available
- in the text, separately of representatives deeds for whole ethnic the group to responsibility to pull affirmative thoughts is there
- in the text, specific one the nation or social the group another one the nation or social to the group against dispute, conflict or hostility to do caller thoughts is there
- in the text, specific one of the nation enmity from before about thoughts is there
- in the text, specific one the nation or social of the group interests another one the nation or social to the group relatively suitable that they are not classy the opposite about thoughts is there
- in the text, specific one social, ethnic or confessional of the group before (past in time), present of the day and future kulfatli (worries, bad days and etc.) other one nation, nation, ethnicity or confessional of the group existence and purposeful with activities (movements). explained thoughts is it available
- in the text, specific one of the nation controversial or hostility in the mood goal , aspiration and actions about thoughts is there
- in the text, genocide is specific one social, ethnic or confessional the group deportation or repression to do praiseworthy, positive appraiser thoughts is it available
- in the text , specific one social , ethnic or confessional group citizens constitutional right and their freedoms to restrict caller or demanding thoughts is there
- national\ uф, confessional or another social to the signs according to united citizens or to groups different benefits to be given caller thoughts is there

For example, the author unknown has been letters analysis in doing an expert text of the author language features analysis to do during social category, come exit region, age, gender such as information clarified will give. One or one how many controversial texts there is in abundance Authorship horse ributin determination complicated. Court- authorship analysis to linguistics directed all level syntactic, semantic, lexicological and speech, as well as spelling, punctuation, stylistics aspects will be checked. This linguistic features combined without each how in the text of the author to himself feature to the attribute based, controversial texts testament coded feature to the attribute based on Controversial texts wills, threats letters, own to his soul intention to do about - gi records to be possible and etc. But the last one ten year inside analysis objects the number grew up. Electronic mail messages, text messages and last like tweets, Facebook and WhatsApp messages, Instagram, Twitter social in networks messages exchange the number increased This trend court of a linguist task complicated because text How short if, then private attributes that's all less will be Or person honor and to its value threat doer letters, appeals analysis in doing an insult doer to the individual judgment does not issue and this of the expert authority it's not. It is an insult level effect scope, cause and consequences checking, final conclusion will give. Summary in the nature of judgment not an expert there is the facts based on hidden aspects obvious open shows, of course of the expert in charge of the task is too great responsible and requires experience process Expert linguist expertise done increase in the process different sources, method and to tools relies on After all, it is linguistic the examination result directly court judgment direction effect shows. The examination transfer for different type information and information base necessary. We are the former in our studies linguistic expertise the following types separate showed were:

- 1) manuscript texts (private correspondence, e-mail messages, sms notices);

- 2) document texts ;
- 3) conflicting texts ;
- 4) extremist materials ;
- 5) advertising texts ;
- 6) goods signs ;
- 7) newspaper texts linguistic expertise .

Of course it is the list say full we can't . Linguistic the examination Forensic criminologist of processes seriousness and complication during surface came new field since, his networks have also expanded to go no doubt. In particular, the following times big companies, organizations logos also linguistically the examination transfer, expertise in the process deductive and inductive of the methods use can Deductive to the method according to common hypotheses based on whole conclusion release can Linguistic the examination in the process this how importance occupation is enough? In this to the analysis drawn materials on take gone to experiences not but makes sense conclusion to issue attention is directed. The reason some logos in itself hidden signs, information transport task did it. General methods three to the group divided into:

1. Empirical research methods (observation, comparison, measurement, experiment).
2. Theoretical research methods (from abstract konkretlikka the climb and others);
3. Empirical and theoretical research methods (analyz and synthesis, induction and deduction, modeling, abstraction and etc.).

Linguistic the examination observation from the method how uses and what it is like the result will give? Usually anonymous letters , insults level to determine directed appeals , advertising texts and that's it such as research in doing initial stage from observation begins, expert writing dynamics ink feature, pen or pencil directions, on the sheet pressure such as from inspection spends, one how many writing forms with different from pens using writing in dynamics happening changes follow, record reached goes, hand writing a person's individual style as is determined. Writing qualification first copy between will be appropriated. Teacher to the line of action taught imitation in the child writing skill is formed. Letters repetition and exercise to do through of the person individual characteristics embodied writing qualification is formed. 3 main ones hand writing style available: block , script and italics . From the initials in blocking is used , in which steep and separated letters each other with is connected . Script manuscript both high part uses and small letters not combined, often pressed to the text looks like In writing Changes are mainly infrared rays through special inspections through is determined. Comparison through conflicted texts characteristic Create can Certain the text from checking before observations as a result common conclusions is issued. In particular, women speech, men speech, age categories according to of speech differentiation, territorial to be specific according to of speech differentiation such as common aspects when clarified text the author about initial thoughts surface will come. Expert there is data based on the facts determines and gender of the text, territorial characteristics in particular conclusion will give. Received data mutually is compared. Especially the manuscript in the texts comparison method very hand will come. Speech recognize get and big in quantity from the data before unknown has been knowledge to receive own into received information in determining writing materials mutually is compared. Suspect of the donee electron in the mail repeatedgan, often meeting standing patterns and to himself special of properties combinations to determine based on Any of the person either verbally written individual characteristics in speech preserved remains. A linguist is an expert task of the text technical features learning not these individual characteristics through text the author about information clarification, speech idiolects based on the author the facts to generalize is directed.

Of the word hidden meanings, symbols the essence of the text to clarify it gives relief. Only one motto, call and appeal during extremist to the activity invitation.
