Project purpose: to create a series of materials for the promotion of the history of Uzbek literature, periods of development and changes in the literary process, based on modern requirements, using scientific and technical achievements abroad, samples of Uzbek literature and Uzbek creation of research in the field of literature in foreign languages through audio and video materials;

Main objective: systematization of archival information about the rich literary and artistic heritage of the Uzbek people, writers and poets who created samples of literature from ancient times to the present day, translation into world languages, publication, promotion to the world.

Expected results: electronic portal, **Uzbekadabiyoti.uz** will be created in Uzbek, Russian and English languages.

Scope: The novelty of the study is the lack of a multilingual electronic platform for Uzbek literature, namely, nonexistence of a database of Uzbek literature, best-known writers and unique masterpieces.

Project implementation: In the framework of the practical project F3-201912258 "Creation of a multilingual electronic platform of Uzbek literature (Uzbek, Russian, English)" for 2021-2023 (1,500,000,000 soums)
